#### Who Murdered Richard Downie?

About the end of the eighteenth cenury, whenever any student of the Marischal College, Abendeen, Scotland, neurred the displeasure of the humbler citizens, he was assailed with the question Who murdered Downie?" Reply and stigmatized as murderers, when then accusers have protability on their side; but the "taking off" of Downie occurred known to any one. The jury retired. During their absence the most profound silence was observed; and except renewing the solitary candle that burnt beside the judge,

there was not the slightest movement. The jury returned and recorded a ver-

The judge selemnly assumed a large black cap, and addressed the prisoner: "Richard Downie! the jury have unanimously found you guilty of conspiring against the just liberty and immunities of the students of Marischal College -You have wantonly provoked and insulted those inoffensive lieges for some months, and your punishment will assuredly be condign You must prepare for death!
